

## STEEL MINI STACKER MG 100

### Technical qualities:

Versatile, the Steel Mini stacker MG 100 can be used for many handling operations in the industrial sector.

Very robust, and with a very low center of gravity, its mechano-welded painted steel chassis provides perfect stability for safe use and movement.

Featuring 4 directional wheels, including 2 brake wheels, and ergonomic handles, the handling of the MG 100 Steel Mini Stacker is optimal.

Safe and very simple operation thanks to its self-braked manual lift winch. The sheaving of the lifting cable allows the operator to lift a large load while greatly limiting the effort to be provided on the crank.

Standard, the MG 100 Steel Mini Stacker is equipped with forks bolted to the apron. *Center distance between forks axes adaptable on demand.*

As an option, many accessories are available: platform, V-Bed platform, Europe tray holders, single arm, crane arm...

**NEW VERSION:** Total height reduced to 2.02 metres making it easier to pass through a standard door frame.

*Available in stainless steel (ref. 300 198).*

### Characteristics:

- Capacity: 100 kg
- Lifting height: 75 à 1600 mm
- Rise by turn of crank: 25 mm
- zinc-plated steel self-braked winch
- Cable galvanized steel  $\varnothing$  4 mm
- Swivelling wheels  $\varnothing$  60 mm
- Forks section (L x W x H) : 510 x 40 x 15 mm
- Center distance of forks axes: 460 mm
- Clutter (L x W x H): 975 x 755 x 2020 mm
- Net weight: 56 kg

*The load should be evenly distributed over the forks or on the surface of the platform.*

*The centre of gravity of the load must be positioned with a maximum deflected 300 mm from the mobile apron.*

*In compliance with the machine Directive 2006/42/CE*

### Ref. 300 195

*Thanks to its versatility and numerous options, the **MG 100 Steel Mini Stacker** solves a majority of handling problems in the industry.*

- Extremely robust and stable chassis
- Handy thanks to its 4 directional wheels
- Ergonomic handles for easy move
- Quality and reliable manual lifting winch
- Reduced effort thanks to its sheaving cable
- Forks bolted to apron, removable
- Versatile, many options available

### Applications:

- Handling miscellaneous loads in the industry
- Extra workstation
- Elevation and removal of trays, cartons, etc.
- Setting up coils on machine, etc...
