

STAINLESS STEEL LOAD MANIPULATOR MCH 150

Technical qualities:

The MCH 150 stainless steel load manipulator has a light structure in 304L stainless steel.

With removable plastic protectors, it respects the integrity of the object you are handling.

The fixed polyamide rollers facilitate passage under the machine.

The multi-position handles allow whatever the size of the user, a comfortable grip.

Equipped as standard with a galvanized steel manual lifting winch, it can be optionally fitted with a 316L stainless steel winch.

Ref. 300 718

The MCH 150 Stainless Steel Load Manipulator has been specially developed for the food industry.

- Robust mechanically welded structure
- Black plastic protectors, removable
- Self-braking manual winch in galvanized steel (1)
- Lightweight and stable

Applications:

- Handling in the food industry
- Handling in difficult environments
- Cold and humid environments

Characteristics:

- Maximum working load: 150 kg
- Lifting height: 60 à 1400 mm
- Raised by crank turn: 65 mm
- At the rear, swivel castors \varnothing 60 mm with brake
- At the front, polyamide rollers (fixed) \varnothing 50 mm
- Fork section (L x W x H): 455 x 20 x 35mm
- Center distance between forks: 330 mm
- Dimensions (L x W x H): 890 x 461 x 1650 mm
- Maximum total height: 2016 mm
- Empty weight: 30 kg

(1): optional, self-braking manual winch in 316 L stainless steel
